YOU HAVE A NEW WEBSITE, NOW WHAT?

- Economic Gateway Content Management System Training
- Website and Content Strategy Development Development of a marketing strategy that addresses five primary components: purpose and goals, advantage, target, marketing, and niche. This strategy will contribute to the overall marketing success and develop pathways for digital marketing, content strategy support, and overall awareness of the goals and objectives. This strategy development will also contribute to the development of the product box, which is the community identifier(s) used to attract the target audience.

CONTENT CREATION
